

SGS

Log Export Monitoring Monthly Report

for
December 2011

to the

Papua New Guinea Forest Authority

April 2012

Monday, 23rd April 2012

Dear Reader

Re: EXPORT LOG MONITORING

Please find attached a copy of the SGS PNG monthly report on its log export monitoring activities for the month of December – 2011. A comprehensive range of log export statistical tables and results of the SGS PNG inspection services has been included.

A total of 102 inspections were carried out this month. Of these, serious discrepancies were detected and corrected for 42 shipments. This represents 41 percent of all shipments. The total volume inspected was 354,089 m³ for the month. Logs exported without initially being declared for export by exporters totalled 3,271 m³. Supplementary declarations by the exporters were required for all these logs, in order to ensure that The State obtained the full financial benefits of the total log export cargoes.

Financial highlights due to export monitoring for this month are as follows:

Additional Log Export Development Levy collectable (K)	15,628
Additional Customs Duty collectable (K)	173,556
Additional Foreign Exchange (K)	397,914
Estimate of Additional Tax Revenue (K)	119,374

The following table summarises the benefits of the monitoring Agreement to Papua New Guinea for the year to date, and the previous two years.

	2009	2010	2011
Direct Project Expenses (K)	5,859,004	7,636,517	7,086,024
Additional Development Levy Payable (K)	219,793	15,496	215,829
Additional Customs Duty Payable (K)	2,584,104	263,761	3,158,259
Additional Tax Payable IRC (K, Estimate)	1,886,698	180,253	2,139,694
Additional Foreign Exchange (K)	6,288,993	600,845	7,162,327
Deterrent Effect (K, additional foreign exch. estimate)	3,233,031	35,292,076	36,603,622

Note: 2011 figures are for January to December

SGS has noted a significant decrease in discrepancies over time since surveillance services were established in late 1994. This on-going 'deterrent effect' has been estimated by the PNGFA as five per cent of the FOB value of log exports.

When reviewing the export and inspections data, it should be noted that not all shipments inspected during the month were exported before month's end.

For any change of address or if you would like to add a name to the mailing list or be removed from the mailing list, please contact the SGS office by email, telephone or fax, at your convenience. Similarly, please advise if you would prefer to receive an email copy of the report instead of a

SGS

printed copy.

Yours faithfully

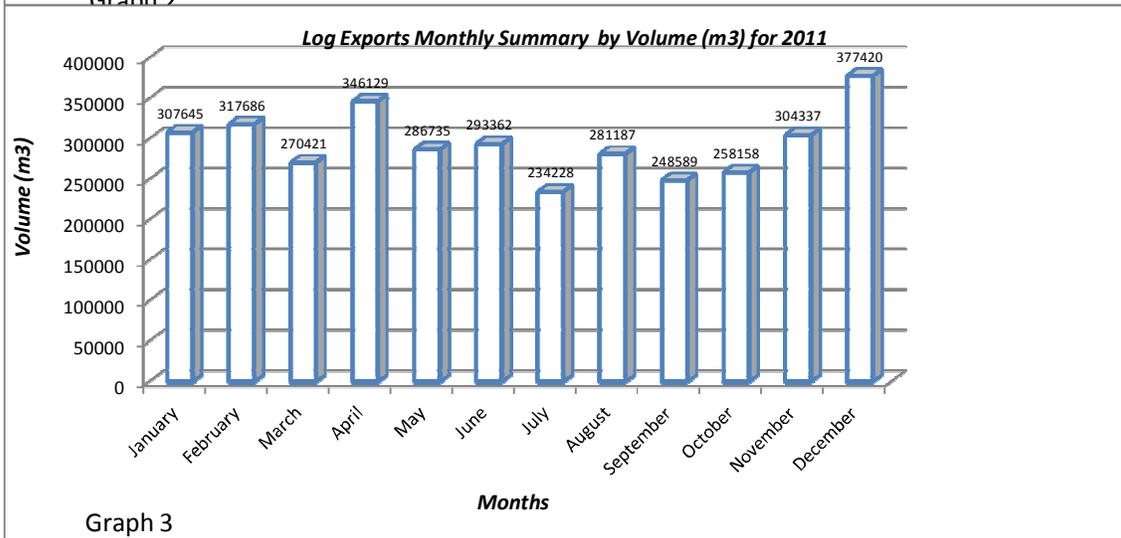

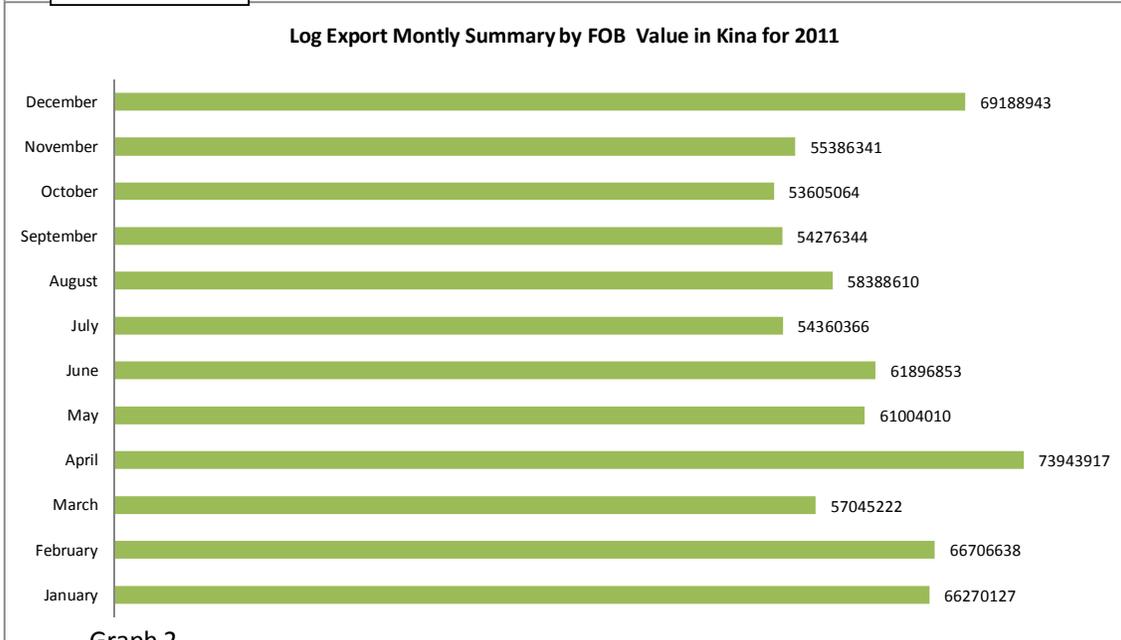

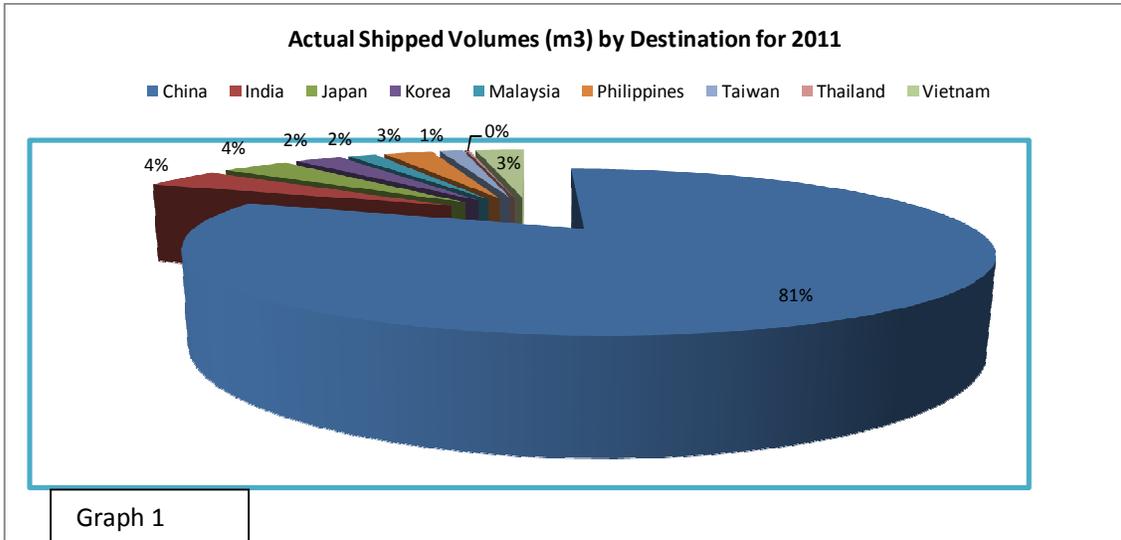

Bruce Telfer
Managing Director
SGS PNG Ltd
Port Moresby

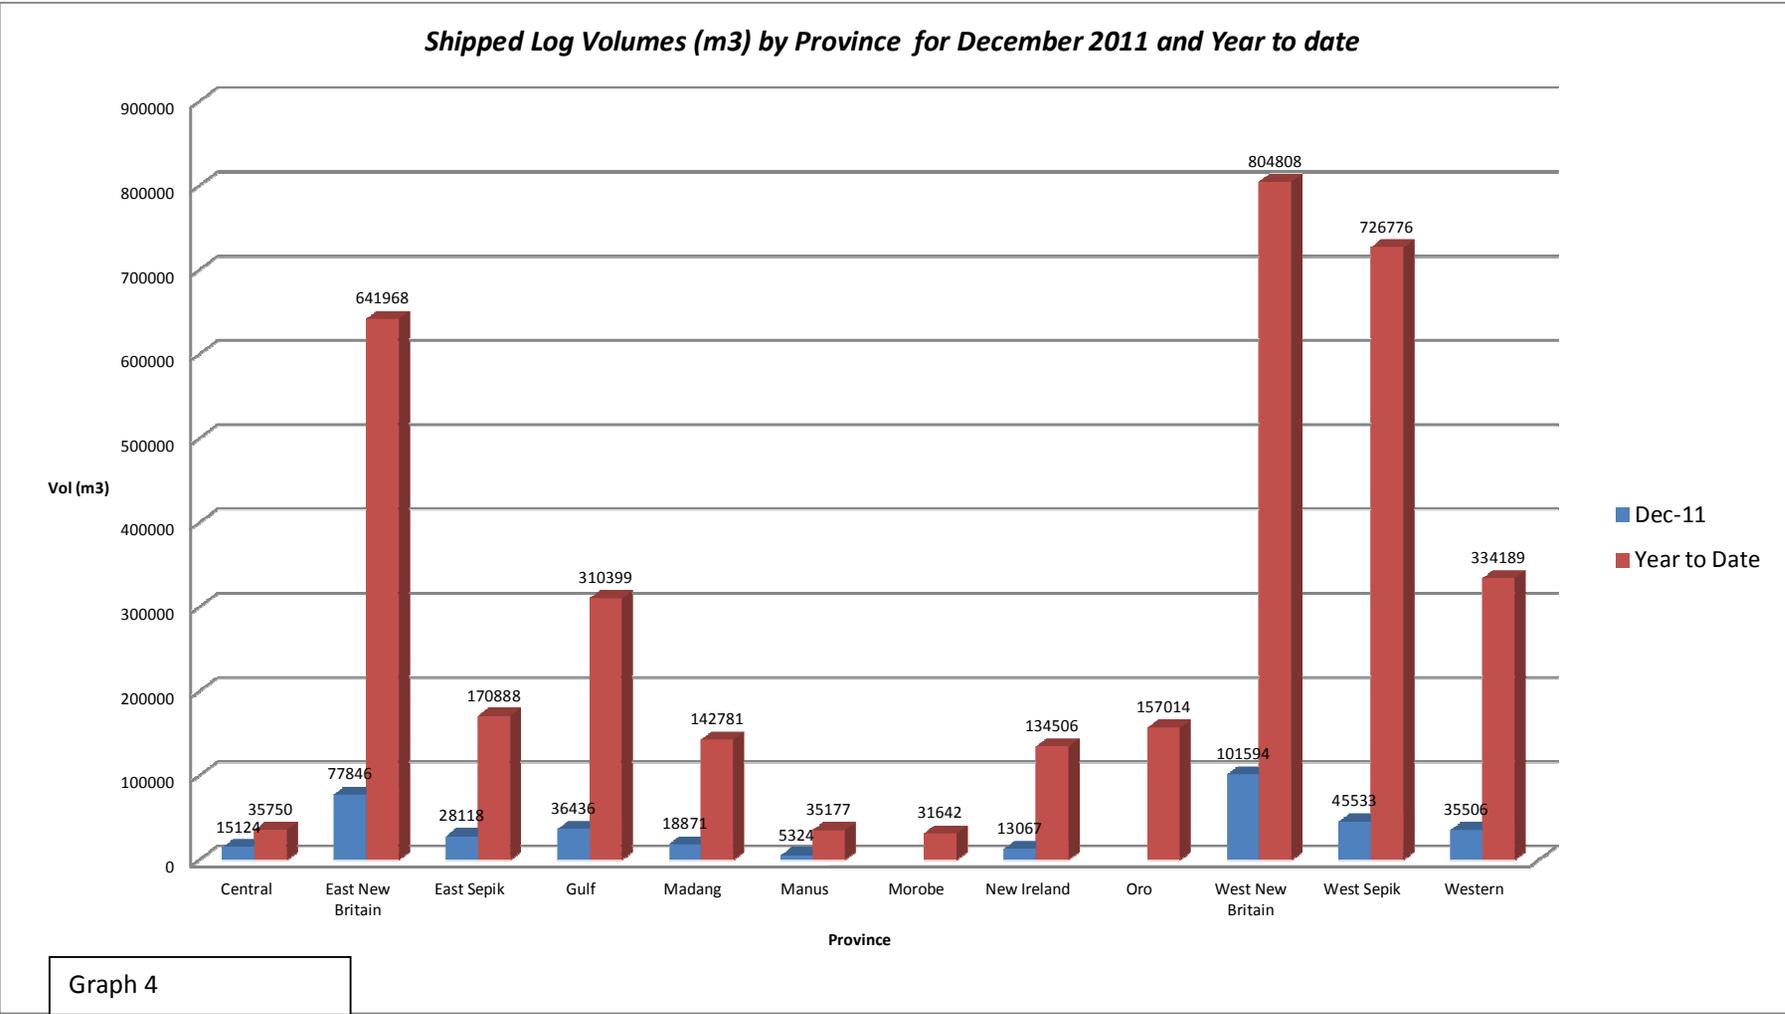

Graphical Hi-Lights of Log Exports in 2011 in Summary.

1. In 2011 81 per cent of PNG round logs in volume was shipped to China. Other countries imported 4 per cent or below. (see graph 1)
2. In terms of monthly FOB value in Kina for 2011, April had the highest of K73,943,917.00 followed by December. (see graph 2)
3. 2011 saw the new record shipped log volumes of 3,525,898 m³ which surpassed the previous highest in 1997 (3,101,056 m³) since monitoring commenced. (see graph 3)
4. West New Britain province shipped out more log volumes (804,808 m³) in 2011 followed by West sepik and East New Britain. (see graph 4)
5. In 2011, 61 per cent of shipped log volumes were group 1 spp. Groups 2-4 were below 17 per cent. (see graph 5)
6. Taun was the dominant group 1 spp exported in 2011 (25 per cent) followed by kwila and malas both on 13 per cent (see graph 6)
7. FCA arranged projects contributed 20 per cent of the log exports in 2011 (see graph 7)
8. Vietnam imported more plantation log volumes by 61 per cent than any other country in 2011 (see graph 8)
9. China took more low grade log volumes by 85 per cent than any other country in 2011 (see graph 9)
10. China also dominated the import of saw/veneer log volumes by 84 per cent than any other countries in 2011 (see graph 10)
11. Vanimo Forest Products Ltd exported the highest log volumes in 2011 (250,944 m³) from its Vanimo TRP Project. (see graph 11 & 12 for more)

Log Export Statistics
and
Export Monitoring
Highlights

December 2011

1. This Report is a *post facto* summary of log export shipment inspections and log exports for the month of December 2011. Individual Log Inspection Reports (LIRs) have been prepared for each shipment immediately following the completion of loading. The LIR is forwarded directly to the PNGFA Project Supervisor if on site, and to the nominated Boarding Officer for clearance of the vessel. Data in this report are based on the LIRs, and post-shipment/commercial documents submitted by exporting companies, for Log Export Permits issued by the Papua New Guinea Forest Authority (PNGFA).
2. Log exports for the month of December 2011 amounted to 377,420 m³ in 108 shipments, of which 6.3 per cent of the volume was plantation logs (see, Report No. 1). Foreign exchange earnings were equivalent to USD33.92 million, with a local currency value of K69.19 million.
3. Log volumes endorsed in December for export amounted to a total of 325,339 m³, this volume decreased significantly by 25.5 per cent compared to the previous month. (see Report Number 8).
4. Log export duty collectable by the Internal Revenue Commission totaled K18.75 million for the month, with an additional K2.83 million payable as export levy (see Report No. 1).
5. The monthly weighted average f.o.b. invoiced price for all saw/veneer rainforest logs was USD91.33/m³ (November 2011: USD88.64/m³), and for all logs was USD89.86/m³ (see Report No. 6). Average prices in general remained steady for all of the high value species in December 2011.
6. Rainforest round logs were exported to five countries in December 2011, predominantly to China again (89.8 per cent of the total log export volume), with India taking (0.9 per cent), Korea (0.7 per cent), Philippines (3.4 per cent) and Japan took (5.2 per cent). (See Report No. 9).
7. Rainforest low grade logs in the total exports increased significantly by 42.5 per cent compared to the previous month. In December 2011, low grade rainforest round logs were exported to China only (100 per cent). (See Report No. 9)
8. During December 2011, Rimbunan Hijau (PNG) Ltd dominated log exports with (29.9 per cent) of the total volume. Log exports by other companies were below 8 per cent. (see Report No. 11 and Report No. 12).
9. Logs were exported from ten provinces during December 2011, dominated by West New Britain (26.9 per cent of the monthly total), East New Britain (20.6 per cent), West Sepik (12.1 per cent) and Gulf (9.7 per cent) (see Report No. 13).

10. SGS PNG inspectors reported major discrepancies for 72 shipments of logs inspected during December 2011. These discrepancies included 1,153 logs not declared for export which were loaded onto vessels, and 435 logs for which the species had been mis-declared (see Report No. 16, page 16-19)

Full details of each discrepancy for each shipment are recorded at site on a 'Notice of Discrepancy' which is countersigned by the Exporter, with a copy to the PNGFA's Project Supervisor at the time of pre-shipment checking or at loading. A copy of the final 'Log Inspection Report' which includes all Notices of Discrepancy is made available to the PNGFA Boarding Officer at the time of clearance of each vessel for sailing.

Also, in accordance with the well-established log inspection practices, for all logs with a mis-declared species code, the Exporters are required to endorse the 'Notice of Discrepancy;' withdraw the log or correct the species code on their log tallies and summaries; and ensure that these changes are incorporated into their invoice documentation. Similarly, for all loaded logs that SGS PNG inspectors detect as being 'undeclared for export,' the Exporters are required to sign a Notice of Discrepancy; make a supplementary declaration of these logs; add the log volumes to their log tallies and summaries; and incorporate the additional volumes into the documentation relating to Bills of Lading, Invoices and Customs Entries for the collection of export duties and levies. By immediately correcting the errors as they are detected by SGS inspectors, the State maximises its returns from log exports

11. The Rimbunan Hijau (PNG) Ltd group of companies achieved the higher average FOB prices for kwila, PNG mersawa, pencil cedar and taun while, Uni Rise Ltd achieved for calophyllum for high value species only exported in December 2011. see Report Number 21)
12. Twenty seven companies were very slow to submit post-shipment documents for December 2011 log exports, exceeding 50 days to submit documents for a shipment, including DD Investment Ltd, (90 days), Frontier Holdings Ltd (78 days), Niugini Lumber Merchants Ltd (111 days), Amanab Forest Products Ltd (103 days) and Island Forest Resources Ltd (103 days) (see Report No. 20).
13. Updated information on log export quota periods has not yet been made available for the various log export projects, and hence the monitoring of export quotas is not presently practicable (see Report Number 22).
14. In December 2011, DD Investment Ltd exported PNG mersawa and taun at FOB USD80 under PNGFA export permit number 1111138 against the PNGFA price endorsement of USD100. This has resulted in under payment of duty by K7, 313.00. (See report number 17).
15. Sumber Alam (PNG) Ltd exported taun at FOB USD85 under PNGFA export permit number 1111120 against the PNGFA price endorsement of USD105. This has resulted in the difference of FOB in kina by K6, 703.00. (See report number 17).
16. Stettin Bay Lumber Co. Ltd exported a small combined volume (11.398 m3) of plantation spp in group 2 and 3 under PNGFA price endorsement numbers 1111123 and 1111106 respectively which had no export permit.

Monthly Discrepancy Report for Shipments Exported during December / 2011

Date printed: 29/01/2012 12:09:31 PM

The following is a list of discrepancies found as a result of detection of 'undeclared' logs in the export stacks and also logs with mis-identified species, for each shipment of logs exported during the month. Each discrepancy is evaluated for its economic impact in terms of revenue which would have been effectively lost to Papua New Guinea had the discrepancy not been detected.

A) Discrepancies by Shipment
